

How To Guide: Email Players from your GotSoccer Account

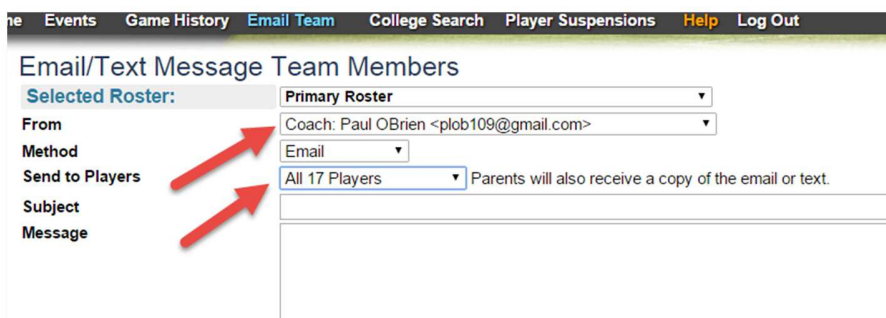

Coaches are responsible for communicating with their team parents.
This can be done easily by using the GotSoccer email function.

To email parents in the team account:

1. Once you are logged in to your team account in GotSoccer, select the button that says EMAIL TEAM

2. Once you have made it to the team email page you can select if the email will come FROM you or your Assistant Coach. You also have the ability to select if you want to email all of your payers or just an individual family.

HINT: Remember that the email address that the email is FROM is the email address that the parent will be able to respond.

3. After you have typed your SUBJECT and MESSAGE, click the button at the bottom: SEND MESSAGE
